**Dynamic Drill & Blast Pty Ltd**  
**Annual Report - 30 June 2018**

**Dynamic Drill & Blast Pty Ltd**  
**Directors' report**  
**For the year ended 30 June 2018**

The directors present their report, together with the financial statements, on the company for the year ended 30 June 2018.

**Directors**

The following persons were directors of the company during the whole of the financial year and up to the date of this report, unless otherwise stated:

Mark Troy Davis  
Matthew Sydney Walter Hawkes – resigned 2 May 2019  
Matthew Leo Freedman – appointed 11 June 2019  
George Henry Miller Garnett – appointed 11 June 2019

**Principal activities**

During the financial year the principal continuing activities of the company consisted of:

- Drilling & blasting services
- Contract labour hire

**Dividends**

Since the start of the financial period, the directors have not paid or declared a dividend.

**Review of operations**

The profit / (loss) for the company after providing for income tax amounted to (\$584,426) (30 June 2017: (\$762,141)).

**Significant changes in the state of affairs**

There were no significant changes in the state of affairs of the company during the financial year.

**Matters subsequent to the end of the financial year**

Since the report date the following significant events have occurred:

- On 31 January 2020, the World Health Organisation (WHO) announced a global health emergency because of a new strain of coronavirus originating in Wuhan, China (COVID-19 outbreak) and the risks to the international community as the virus spreads globally beyond its point of origin. Because of the rapid increase in exposure globally, on 11 March 2020, the WHO classified the COVID-19 outbreak as a pandemic.

The full impact of the COVID-19 outbreak continues to evolve at the date of this report. The Company is therefore uncertain as to the full impact that the pandemic will have on its financial condition, liquidity, and future results of operations during 2020.

Management is actively monitoring the global situation and its impact on the Company's financial condition, liquidity, operations, suppliers, industry, and workforce. Given the daily evolution of the COVID-19 outbreak and the global responses to curb its spread, the Company is not able to estimate the effects of the COVID-19 outbreak on its results of operations, financial condition, or liquidity for the 2020 financial year.

Although the Company cannot estimate the length or gravity of the impact of the COVID-19 outbreak at this time, if the pandemic continues, it may have a material adverse effect on the Company's results of future operations, financial position, and liquidity in the fiscal year 2020.

- Since the reporting date of this report, the Company has secured a long-term contract with one of its customers.
- To further expand the Company's operations, the Directors wish to list the Company on the Australian Stock Exchange and is currently completing the requirements in order to undertake an Initial Public Offering.

Other than these matter, no matter have arisen since the end of the financial year to the date of this report of a material and unusual nature likely, in the opinion of the Directors, to affect significantly the operations the Company, the results of those operations, or the state of affairs of the Company in future financial years.

**Likely developments and expected results of operations**

Information on likely developments in the operations of the company and the expected results of operations have not been included in this report because the directors believe it would be likely to result in unreasonable prejudice to the company.

**Dynamic Drill & Blast Pty Ltd**  
**Directors' report**  
**For the year ended 30 June 2018**

**Environmental regulation**

The company is not subject to any significant environmental regulation under Australian Commonwealth or State law.

**Shares under option**

There were no unissued ordinary shares of the company under option outstanding at the date of this report.

**Shares issued on the exercise of options**

There were no ordinary shares of the company issued on the exercise of options during the year ended 30 June 2018 and up to the date of this report.

**Indemnity and insurance of officers**

The company has indemnified the directors and executives of the company for costs incurred, in their capacity as a director or executive, for which they may be held personally liable, except where there is a lack of good faith.

During the financial year, the company paid a premium in respect of a contract to insure the directors and executives of the company against a liability to the extent permitted by the Corporations Act 2001. The contract of insurance prohibits disclosure of the nature of the liability and the amount of the premium.

**Indemnity and insurance of auditor**

The company has not, during or since the end of the financial year, indemnified or agreed to indemnify the auditor of the company or any related entity against a liability incurred by the auditor.

During the financial year, the company has not paid a premium in respect of a contract to insure the auditor of the company or any related entity.

**Proceedings on behalf of the company**

No person has applied to the Court under section 237 of the Corporations Act 2001 for leave to bring proceedings on behalf of the company, or to intervene in any proceedings to which the company is a party for the purpose of taking responsibility on behalf of the company for all or part of those proceedings.

**Auditor's independence declaration**

A copy of the auditor's independence declaration as required under section 307C of the Corporations Act 2001 is set out immediately after this directors' report.

This report is made in accordance with a resolution of directors, pursuant to section 298(2)(a) of the Corporations Act 2001.

On behalf of the directors

Mark Troy Davis  
Director

24 June 2020

DECLARATION OF INDEPENDENCE BY DEAN JUST TO THE DIRECTORS OF DYNAMIC DRILL & BLAST PTY LTD

As lead auditor of Dynamic Drill & Blast Pty Ltd for the year ended 30 June 2018, I declare that, to the best of my knowledge and belief, there have been:

1. No contraventions of the auditor independence requirements of the Corporations Act 2001 in relation to the audit; and
2. No contraventions of any applicable code of professional conduct in relation to the audit.

Dean Just

Director

BDO Audit (WA) Pty Ltd

Perth, 24 June 2020

### **Note 1. Significant accounting policies**

The principal accounting policies adopted in the preparation of the financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

#### **Going Concern**

The financial reports has been prepared on a going concern basis, which contemplates the continuity of normal business activity and the realisation of assets and the settlement of liabilities in the ordinary course of business. For the year ended 30 June 2018, the Company recorded a loss before income tax of \$583,764. The Company's net cash flow from operating activities was \$705,378 with a net current asset position of \$(1,655,849).

Subsequent to reporting date, on 31 January 2020, the World Health Organisation (WHO) announced a global health emergency because of a new strain of coronavirus originating in Wuhan, China (COVID-19 outbreak) and the risks to the international community as the virus spreads globally beyond its point of origin. Because of the rapid increase in exposure globally, on 11 March 2020, the WHO classified the COVID-19 outbreaks as a pandemic. These events are having a significant impact and recovery from the COVID-19 is unknown but it may have an impact on the Company's activities and potentially impact on being able to raise capital in an uncertain market.

In context of this operating environment, the ability of the Company to continue as a going concern is depending on securing additional funding through debt or equity to continue to fund its operational activities.

These conditions indicate a material uncertainty that may cast a significant doubt about the entity's ability to continue as a going concern and therefore, that it may be unable to realise its assets and discharge its liabilities in the normal course of business.

The Directors believe that there will be sufficient funds available to continue to meet the Company's working capital requirements as at the date of this report and that sufficient funds will be available to finance the operations of the Company for the following reasons:

- The Directors have assessed the likely cash flow for the 12 month period from the date of signing this financial report and its impact on the Company and believe there will be sufficient funds to meet the Company's working capital requirements at the date of this report.
- The Company has the ability to reduce its expenditure to conserve cash.
- The Company can call upon further working capital from the existing shareholders if required.
- The Company's net current liability position at period end is due to the current liability classification of borrowings of \$739,815 and employee benefits of \$520,506. Whilst these amounts are classified as current at reporting date, they are not due as at that date and will be settled over the course of the following twelve-month period. The Directors believe that the Company will have sufficient cash flow to meet all commitments and working capital requirements for the 12-month period from the date of signing this report.
- Additional cash funding from the Australian Government in the form of cash payments and credits have eased the financial burden during the global pandemic.
- The Company intends to capital raise by listing on the Australian Stock Exchange which is expected to significantly increase the Company's working capital position.

Should the Company not be able to continue as a going concern, it may be required to realise its assets and discharge its liabilities other than in the ordinary course of business, and at amounts that differ from those stated in the financial statements or raise additional capital through equity or debts raisings and that the financial reports does not include any adjustments relating to the recoverability and classification or recorded asset amounts or liabilities that might be necessary should the Company not continue as a going concern and meet its debts as and when they become due and payable. The directors plan to continue the Company's operations on the basis s outlined above and believe there will be sufficient funds for the Company to meet its obligations and liabilities for at least twelve months from the date of this report.

#### **New or amended Accounting Standards and Interpretations adopted**

The following new and amended accounting standard and interpretations relevant to the operations of the company have been published but are not mandatory for the current financial year.

The company has decided against early adoption of the AASB 16 Leases and based on its preliminary assessment, the management does expect a material impact on adoption of AASB 16 Leases.

**Note 1. Significant accounting policies (continued)**

A number of new or amended standards became applicable for the current reporting period and the Company had change its accounting policies as a result of the early adoption of the following standards:

- AASB 9 Financial Instruments; and
- AASB 15 Revenue from Contracts with Customers.

The impact of the early adoption of these standards and the new accounting policies are discussed below. The impact of the new standards adopted by the Company, has not had a material impact on the amounts presented in the Company's financial statements.

*AASB 9 Financial Instruments – Impact of early Adoption*

*Impairment of financial assets*

The Company's financial assets subject to AASB 9's new expected credit loss model are cash and trade receivables, which arise from the provision of services.

The impact of the impairment requirements of AASB 9 on cash and cash equivalents has not resulted in a materials impact to the financial statements.

Under AASB 9, the Company was required to revise the impairment methodology used in the calculation of its provision for doubtful debts to the expected credit loss model. This change in methodology has not has a material impact on the financial statements. The Company applies the AASB 9 simplified approach to measuring expected credits losses which uses a lifetime expected loss allowance for all trade receivables. Trade receivables will be written off when there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include, amongst others, the failure or a debtor to engage in a repayment plan with the Company and a failure to make contractual payments for a period of greater than 120 days past due.

*AASB 9 Financial Instruments – Accounting Policies applied from 1 July 2017*

*Classification*

From 1 July 2017, the Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value, and
- those to be measured at amortised cost.

The classification depends on how the Company manages the financial assets and the contractual terms of the cash flows. At year end, all of the Company's financial assets have been classified as those to be measured at amortised cost.

*Measurement*

At initial recognition, the Company measures a financial asset at its fair value.

*Impairment*

From 1 January 2018, the Company assesses expected credit losses associated on a forward looking basis. For trade receivables, the Company applies the simplified approach permitted by AASB 9, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

*AASB 15 Revenue from Contracts with Customers – Impact of early Adoption*

The Company has early adopted AASB 15 Revenue from Contracts with Customers from 1 July 2017 which resulted in changes to accounting policies but no adjustments to the amounts recognised in the financial statements.

*AASB 15 Revenue from Contracts with Customers – Accounting Policies applied from 1 July 2017*

The Company has no material contracts where the period between the transfer of the promised services to the customer and payment by the customer exceeds one year. As a consequence, the Company does not adjust any of the transaction prices for the time value of money.

**Dynamic Drill & Blast Pty Ltd**  
**Notes to the financial statements**  
**For the year ended 30 June 2018**

**Note 1. Significant accounting policies (continued)**

**Basis of preparation**

In the directors' opinion, the company is not a reporting entity because there are no users dependent on general purpose financial statements.

These are special purpose financial statements that have been prepared for the purposes of complying with the Corporations Act 2001 requirements to prepare and distribute financial statements to the owners of Dynamic Drill & Blast Pty Ltd. The directors have determined that the accounting policies adopted are appropriate to meet the needs of the owners of Dynamic Drill & Blast Pty Ltd.

These financial statements have been prepared in accordance with the recognition and measurement requirements specified by the Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') and the disclosure requirements of AASB 101 'Presentation of Financial Statements', AASB 107 'Statement of Cash Flows', AASB 108 'Accounting Policies, Changes in Accounting Estimates and Errors', AASB 1048 'Interpretation of Standards' and AASB 1054 'Australian Additional Disclosures', as appropriate for for-profit oriented entities.

*Historical cost convention*

The financial statements have been prepared under the historical cost convention, except for, where applicable, certain classes of property, plant and equipment and derivative financial instruments.

*Critical accounting estimates*

The preparation of the financial statements requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the company's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in note 2.

**Revenue recognition**

*Revenue*

Revenue from the rendering of a service is recognised upon the delivery of the service to the customers. Contract revenue is recognised in profit or loss in proportion to the stage of completion of the transaction at the reporting date. The stage of completion is assessed by reference to work performed based on either a fixed price or an hourly rate.

*Interest*

Interest revenue is recognised as interest accrues using the effective interest method. This is a method of calculating the amortised cost of a financial asset and allocating the interest income over the relevant period using the effective interest rate, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the net carrying amount of the financial asset.

*Other revenue*

Other revenue is recognised when it is received or when the right to receive payment is established.

**Income tax**

The income tax expense or benefit for the period is the tax payable on that period's taxable income based on the applicable income tax rate for each jurisdiction, adjusted by the changes in deferred tax assets and liabilities attributable to temporary differences, unused tax losses and the adjustment recognised for prior periods, where applicable.

Deferred tax assets and liabilities are recognised for temporary differences at the tax rates expected to be applied when the assets are recovered or liabilities are settled, based on those tax rates that are enacted or substantively enacted, except for:

- When the deferred income tax asset or liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and that, at the time of the transaction, affects neither the accounting nor taxable profits; or
- When the taxable temporary difference is associated with interests in subsidiaries, associates or joint ventures, and the timing of the reversal can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

**Note 1. Significant accounting policies (continued)**

The carrying amount of recognised and unrecognised deferred tax assets are reviewed at each reporting date. Deferred tax assets recognised are reduced to the extent that it is no longer probable that future taxable profits will be available for the carrying amount to be recovered. Previously unrecognised deferred tax assets are recognised to the extent that it is probable that there are future taxable profits available to recover the asset.

Deferred tax assets and liabilities are offset only where there is a legally enforceable right to offset current tax assets against current tax liabilities and deferred tax assets against deferred tax liabilities; and they relate to the same taxable authority on either the same taxable entity or different taxable entities which intend to settle simultaneously.

**Current and non-current classification**

Assets and liabilities are presented in the statement of financial position based on current and non-current classification.

An asset is classified as current when: it is either expected to be realised or intended to be sold or consumed in the company's normal operating cycle; it is held primarily for the purpose of trading; it is expected to be realised within 12 months after the reporting period; or the asset is cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period. All other assets are classified as non-current.

A liability is classified as current when: it is either expected to be settled in the company's normal operating cycle; it is held primarily for the purpose of trading; it is due to be settled within 12 months after the reporting period; or there is no unconditional right to defer the settlement of the liability for at least 12 months after the reporting period. All other liabilities are classified as non-current.

Deferred tax assets and liabilities are always classified as non-current.

**Cash and cash equivalents**

Cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

**Trade and other receivables**

Trade receivables are initially recognised at fair value and subsequently measured at amortised cost using the effective interest method, less any allowance for expected credit losses. Trade receivables are generally due for settlement within 30 days.

The company has applied the simplified approach to measuring expected credit losses, which uses a lifetime expected loss allowance. To measure the expected credit losses, trade receivables have been grouped based on days overdue.

Other receivables are recognised at amortised cost, less any allowance for expected credit losses.

**Property, plant and equipment**

Land and buildings are shown at fair value, based on periodic, at least every 3 years, valuations by external independent valuers, less subsequent depreciation and impairment for buildings. The valuations are undertaken more frequently if there is a material change in the fair value relative to the carrying amount. Any accumulated depreciation at the date of revaluation is eliminated against the gross carrying amount of the asset and the net amount is restated to the revalued amount of the asset. Increases in the carrying amounts arising on revaluation of land and buildings are credited in other comprehensive income through to the revaluation surplus reserve in equity. Any revaluation decrements are initially taken in other comprehensive income through to the revaluation surplus reserve to the extent of any previous revaluation surplus of the same asset. Thereafter the decrements are taken to profit or loss.

Plant and equipment is stated at historical cost less accumulated depreciation and impairment. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

**Dynamic Drill & Blast Pty Ltd**  
**Notes to the financial statements**  
**For the year ended 30 June 2018**

**Note 1. Significant accounting policies (continued)**

Depreciation is calculated on a straight-line basis to write off the net cost of each item of property, plant and equipment (excluding land) over their expected useful lives as follows:

Buildings	40 years
Leasehold improvements	3-10 years
Plant and equipment	3-7 years
Plant and equipment under lease	2-5 years

The residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each reporting date.

Leasehold improvements and plant and equipment under lease are depreciated over the unexpired period of the lease or the estimated useful life of the assets, whichever is shorter.

An item of property, plant and equipment is derecognised upon disposal or when there is no future economic benefit to the company. Gains and losses between the carrying amount and the disposal proceeds are taken to profit or loss. Any revaluation surplus reserve relating to the item disposed of is transferred directly to retained profits.

**Leases**

The determination of whether an arrangement is or contains a lease is based on the substance of the arrangement and requires an assessment of whether the fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset.

A distinction is made between finance leases, which effectively transfer from the lessor to the lessee substantially all the risks and benefits incidental to the ownership of leased assets, and operating leases, under which the lessor effectively retains substantially all such risks and benefits.

Finance leases are capitalised. A lease asset and liability are established at the fair value of the leased assets, or if lower, the present value of minimum lease payments. Lease payments are allocated between the principal component of the lease liability and the finance costs, so as to achieve a constant rate of interest on the remaining balance of the liability.

Leased assets acquired under a finance lease are depreciated over the asset's useful life or over the shorter of the asset's useful life and the lease term if there is no reasonable certainty that the company will obtain ownership at the end of the lease term.

Operating lease payments, net of any incentives received from the lessor, are charged to profit or loss on a straight-line basis over the term of the lease.

**Impairment of non-financial assets**

Non-financial assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount.

Recoverable amount is the higher of an asset's fair value less costs of disposal and value-in-use. The value-in-use is the present value of the estimated future cash flows relating to the asset using a pre-tax discount rate specific to the asset or cash-generating unit to which the asset belongs. Assets that do not have independent cash flows are grouped together to form a cash-generating unit.

**Trade and other payables**

These amounts represent liabilities for goods and services provided to the company prior to the end of the financial year and which are unpaid. Due to their short-term nature they are measured at amortised cost and are not discounted. The amounts are unsecured and are usually paid within 30 days of recognition.

**Borrowings**

Loans and borrowings are initially recognised at the fair value of the consideration received, net of transaction costs. They are subsequently measured at amortised cost using the effective interest method.

**Note 1. Significant accounting policies (continued)**

**Finance costs**

Finance costs attributable to qualifying assets are capitalised as part of the asset.

All other finance costs are expensed in the period in which they are incurred.

**Provisions**

Provisions are recognised when the company has a present (legal or constructive) obligation as a result of a past event, it is probable the company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the reporting date, taking into account the risks and uncertainties surrounding the obligation. If the time value of money is material, provisions are discounted using a current pre-tax rate specific to the liability. The increase in the provision resulting from the passage of time is recognised as a finance cost.

**Employee benefits**

*Short-term employee benefits*

Liabilities for wages and salaries, including non-monetary benefits, annual leave and long service leave expected to be settled wholly within 12 months of the reporting date are measured at the amounts expected to be paid when the liabilities are settled.

*Other long-term employee benefits*

The liability for annual leave and long service leave not expected to be settled within 12 months of the reporting date are measured at the present value of expected future payments to be made in respect of services provided by employees up to the reporting date using the projected unit credit method. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the reporting date on corporate bonds with terms to maturity and currency that match, as closely as possible, the estimated future cash outflows.

*Defined contribution superannuation expense*

Contributions to defined contribution superannuation plans are expensed in the period in which they are incurred.

**Fair value measurement**

When an asset or liability, financial or non-financial, is measured at fair value for recognition or disclosure purposes, the fair value is based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date; and assumes that the transaction will take place either: in the principal market; or in the absence of a principal market, in the most advantageous market.

Fair value is measured using the assumptions that market participants would use when pricing the asset or liability, assuming they act in their economic best interests. For non-financial assets, the fair value measurement is based on its highest and best use. Valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, are used, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

**Issued capital**

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

**Dividends**

Dividends are recognised when declared during the financial year and no longer at the discretion of the company.

**Goods and Services Tax ('GST') and other similar taxes**

Revenues, expenses and assets are recognised net of the amount of associated GST, unless the GST incurred is not recoverable from the tax authority. In this case it is recognised as part of the cost of the acquisition of the asset or as part of the expense.

**Note 1. Significant accounting policies (continued)**

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the tax authority is included in other receivables or other payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to the tax authority, are presented as operating cash flows.

Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the tax authority.

**New Accounting Standards and Interpretations not yet mandatory or early adopted**

Australian Accounting Standards and Interpretations that have recently been issued or amended but are not yet mandatory, have not been early adopted by the company for the annual reporting period ended 30 June 2018. The company has not yet assessed the impact of these new or amended Accounting Standards and Interpretations.

**Note 2. Critical accounting judgements, estimates and assumptions**

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts in the financial statements. Management continually evaluates its judgements and estimates in relation to assets, liabilities, contingent liabilities, revenue and expenses. Management bases its judgements, estimates and assumptions on historical experience and on other various factors, including expectations of future events, management believes to be reasonable under the circumstances. The resulting accounting judgements and estimates will seldom equal the related actual results. The judgements estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities (refer to the respective notes) within the next financial year are discussed below.

*Contract revenue and work in progress*

Revenue is recognised when a customer obtains control of the goods or services. Determining the timing of the transfer of control – at a point in time or over time – requires judgement such as assumed levels of project execution productivity.

Revenue from the Company arises from providing professional services to our customers. These are to be predominately recognised over time with reference to inputs on satisfaction of the performance obligations. The services that have been determined to be one performance obligation are highly interrelated and fulfilled over time, therefore revenue continues to be recognised over time.

*Estimation of useful lives of assets*

The company determines the estimated useful lives and related depreciation and amortisation charges for its property, plant and equipment and finite life intangible assets. The useful lives could change significantly as a result of technical innovations or some other event. The depreciation and amortisation charge will increase where the useful lives are less than previously estimated lives, or technically obsolete or non-strategic assets that have been abandoned or sold will be written off or written down.

*Impairment of non-financial assets other than goodwill and other indefinite life intangible assets*

The Company assesses impairment of non-financial assets other than goodwill and other indefinite life intangible assets at each reporting date by evaluating conditions specific to the company and to the particular asset that may lead to impairment. If an impairment trigger exists, the recoverable amount of the asset is determined. This involves fair value less costs of disposal or value-in-use calculations, which incorporate a number of key estimates and assumptions.

*Income tax*

The Company is subject to income taxes in the jurisdictions in which it operates. Significant judgement is required in determining the provision for income tax. There are many transactions and calculations undertaken during the ordinary course of business for which the ultimate tax determination is uncertain. The company recognises liabilities for anticipated tax audit issues based on the company's current understanding of the tax law. Where the final tax outcome of these matters is different from the carrying amounts, such differences will impact the current and deferred tax provisions in the period in which such determination is made.

*Recovery of deferred tax assets*

Deferred tax assets are recognised for deductible temporary differences only if the company considers it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

**Dynamic Drill & Blast Pty Ltd**  
**Notes to the financial statements**  
**For the year ended 30 June 2018**

**Note 2. Critical accounting judgements, estimates and assumptions (continued)**

*Impairment of non-financial assets*

Non-financial assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount.

Recoverable amount is the higher of an asset's fair value less costs of disposal and value-in-use. The value-in-use is the present value of the estimated future cash flows relating to the asset using a pre-tax discount rate specific to the asset or cash-generating unit to which the asset belongs. Assets that do not have independent cash flows are group together to form a cash-generating unit.

*Employee benefits provision*

As discussed in note 1, the liability for employee benefits expected to be settled more than 12 months from the reporting date are recognised and measured at the present value of the estimated future cash flows to be made in respect of all employees at the reporting date. In determining the present value of the liability, estimates of attrition rates and pay increases through promotion and inflation have been taken into account.

**Note 3. Revenue**

Shares issued	300	3
Closing balance (30 June 2018)	<u>303</u>	<u>6</u>

*Ordinary shares*

Ordinary shares entitle the holder to participate in dividends and the proceeds on the winding up of the company in proportion to the number of and amounts paid on the shares held. The fully paid ordinary shares have no par value and the company does not have a limited amount of authorised capital.

On a show of hands every member present at a meeting in person or by proxy shall have one vote and upon a poll each share shall have one vote.

**Note 18. Equity - retained profits/ (accumulated losses)**

	<b>2018</b>	<b>Unaudited</b>
	<b>\$</b>	<b>2017</b>
		<b>\$</b>
Retained profits / (accumulated losses) at the beginning of the financial year	(515,166)	246,975
Profit/ (loss) after income tax expense for the year	<u>(584,426)</u>	<u>(762,141)</u>
Retained profits/ (accumulated losses) at the end of the financial year	<u>(1,099,592)</u>	<u>(515,166)</u>

**Note 19. Equity - dividends**

*Dividends*

There were no dividends paid or declared during the current or previous financial period.

*Franking credits*

	<b>2018</b>	<b>Unaudited</b>
	<b>\$</b>	<b>2017</b>
		<b>\$</b>
Franking credits available for subsequent financial years based on a tax rate of 27.5%	<u>523,962</u>	<u>439,375</u>

The above amounts represent the balance of the franking account as at the end of the financial year, adjusted for:

- franking credits that will arise from the payment of the amount of the provision for income tax at the reporting date
- franking debits that will arise from the payment of dividends recognised as a liability at the reporting date
- franking credits that will arise from the receipt of dividends recognised as receivables at the reporting date

**Note 20. Contingent liabilities**

There were no contingent liabilities as at the date of this report.

**Note 21. Events after the reporting period**

Subsequent to year end the following events occurred:

- The Company formally commenced a process to list of the Australian Securities Exchange;
- The Company successfully tendered a new long-term contract with a major client.
- On 31 January 2020, the World Health Organisation (WHO) announced a global health emergency because of a new strain of coronavirus originating in Wuhan, China (COVID-19 outbreak) and the risks to the international community as the virus spreads globally beyond its point of origin. Because of the rapid increase in exposure globally, on 11 March 2020, the WHO classified the COVID-19 outbreak as a pandemic.

The full impact of the COVID-19 outbreak continues to evolve at the date of this report. The company is therefore uncertain as to the full impact that the pandemic will have on its financial condition, liquidity and future results of operations during 2020.

Management is actively monitoring the global situation and its impact on the Company's financial condition, liquidity, operations, suppliers, industry, and workforce. Given the daily evolution of the COVID-19 outbreak and the global responses to curb its spread, the Company is not able to estimate the effects of the COVID-19 outbreak on its results of operations, financial condition, or liquidity for the 2020 financial year.

Although the Company cannot estimate the length or gravity of the impact of the COVID-19 outbreak at this time, if the pandemic continues, it may have a material adverse effect on the Company's results of future operations, financial position, and liquidity in fiscal year 2020.

Other than these matters, no matters have arisen since the end of the financial year to the date of this report of a material and unusual nature likely, in the opinion of the Director's, to affect significantly the operations of the Company, the results of those operations, or the state of affairs of the Company in future financial years.

**Note 22. Reconciliation of profit/ (loss) after income tax to net cash from operating activities**

	<b>2018</b>	<b>Unaudited</b>
	<b>\$</b>	<b>2017</b>
		<b>\$</b>
Profit/ (loss) after income tax expense for the year	(584,426)	(762,141)
Adjustments for:		
Depreciation and amortisation	207,137	262,664

**Dynamic Drill & Blast Pty Ltd**  
**Directors' declaration**  
**For the year ended 30 June 2018**

In the directors' opinion:

- the company is not a reporting entity because there are no users dependent on general purpose financial statements. Accordingly, as described in note 1 to the financial statements, the attached special purpose financial statements have been prepared for the purposes of complying with the Corporations Act 2001 requirements to prepare and distribute financial statements to the owners of Dynamic Drill & Blast Pty Ltd;
- the attached financial statements and notes comply with the Corporations Act 2001, the Accounting Standards as described in note 1 to the financial statements, the Corporations Regulations 2001 and other mandatory professional reporting requirements;
- the attached financial statements and notes give a true and fair view of the company's financial position as at 30 June 2018 and of its performance for the financial year ended on that date; and
- there are reasonable grounds to believe that the company will be able to pay its debts as and when they become due and payable.

Signed in accordance with a resolution of directors made pursuant to section 295(5)(a) of the Corporations Act 2001.

On behalf of the directors

---

Mark Troy Davis  
Director

24 June 2020

## INDEPENDENT AUDITOR'S REPORT

To the members of Dynamic Drill & Blast Pty Ltd

### Report on the Audit of the Financial Report

#### Opinion

We have audited the financial report of Dynamic Drill & Blast Pty Ltd (the Company), which comprises the statement of financial position as at 30 June 2018, the statement of profit or loss and other comprehensive income, the statement of changes in equity and the statement of cash flows for the year then ended, and notes to the financial report, including a summary of significant accounting policies, and the directors' declaration.

In our opinion the accompanying financial report of Dynamic Drill & Blast Pty Ltd, is in accordance with the Corporations Act 2001, including:

- (i) Giving a true and fair view of the Company's financial position as at 30 June 2018 and of its financial performance for the year ended on that date; and
- (ii) Complying with Australian Accounting Standards to the extent described in Note 1, and the Corporations Regulations 2001.

#### Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the Financial Report section of our report. We are independent of the Company in accordance with the auditor independence requirements of the Corporations Act 2001 and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards) (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the Corporations Act 2001, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Material uncertainty related to going concern

We draw attention to Note 1 in the financial report which describes the events and/or conditions which give rise to the existence of a material uncertainty that may cast significant doubt about the entity's ability to continue as a going concern and therefore the entity may be unable to realise its assets and discharge its liabilities in the normal course of business. Our opinion is not modified in respect of this matter.

For personal use only

#### Emphasis of matter - Basis of accounting

We draw attention to Note 1 to the financial report, which describes the basis of accounting. The financial report has been prepared for the purpose of fulfilling the directors' financial reporting responsibilities under the Corporations Act 2001. As a result, the financial report may not be suitable for an other purpose. Our opinion is not modified in respect of this matter.

#### Other matter

The corresponding figures for the year ended 30 June 2017 are unaudited.

#### Other information

The directors are responsible for the other information. The other information comprises the information in the Directors' report for the year ended 30 June 2018, but does not include the financial report and the auditor's report thereon.

Our opinion on the financial report does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

#### Responsibilities of the directors for the Financial Report

The directors of the company are responsible for the preparation of the financial report that gives a true and fair view and have determined that the basis of preparation described in Note 1 to the financial report is appropriate to meet the requirements of the Corporations Act 2001 and is appropriate to meet the needs of the members. The directors' responsibility also includes such internal control as the directors determine is necessary to enable the preparation of a financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

#### Auditor's responsibilities for the audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website (<http://www.auasb.gov.au/Home.aspx>) at:

[http://www.auasb.gov.au/auditors\\_responsibilities/ar4.pdf](http://www.auasb.gov.au/auditors_responsibilities/ar4.pdf)

This description forms part of our auditor's report.

BDO Audit (WA) Pty Ltd

BDO  
A handwritten signature in black ink, appearing to read 'Dean Just', written over the printed name.

Dean Just

Director

Perth, 24 June 2020
